

## Welcome to **Connect** for Investigative Sites The Home of the Catalyst Community

---

**Connect for Investigative Sites** is **Investigator**-centric. That means that the personalized site information presented within Connect is based upon the unique **Investigator** email address associated with the projects for which the **Investigator** and Site are working.

**Investigators** are required to register their own email address and personally accept the Connect Privacy Policy before their account and access can be generated. The process takes just a few minutes.

Once logged in to **Connect for Investigative Sites**, **Investigators** will have the opportunity to invite members of their team to serve as **Delegates** for their Connect Account. **Delegates** may manage an **Investigator's** site profile, view grant payment information, and access Catalyst Community content on behalf of the **Investigator**. All the **Investigator** needs is the email address of the **Delegate** they wish to add.

**Delegates** can also initiate registration on **Connect for Investigative Sites** by choosing "Delegate" during registration. The **Delegate** is then able to invite their **Investigator** to register from within **Connect for Investigative Sites**.

Instructions for adding **Delegates** to an **Investigator's** account are available in the **Connect for Investigative Sites** Help Guide located on the Connect home page after login.

If you need additional information, please feel free to contact us using the 'Contact Syneos Health' link at the top right of the Connect Welcome page, or at [connect\\_support@syneoshealth.com](mailto:connect_support@syneoshealth.com).

**Thank you!**
